

Sample resume. The student, school and employers are fictional.

Ravi Delorme

Kingston, ON | (555) 555-0161 | ravi.delorme@example.com

Highlights of Qualifications

- Third-year Mechanical Engineering co-op student, available for a four-, eight- or twelve-month work term starting May 2027
- One completed co-op term in manufacturing quality, including incoming inspection and work instruction updates
- Computer-aided design (CAD) in SolidWorks and AutoCAD, with parts modelled for a student design team
- Hands-on shop experience with a manual mill, calipers and micrometers

Education

Bachelor of Applied Science (BASc), Mechanical Engineering, Co-op, Frontenac Polytechnic University, Kingston, ON

September 2024 - April 2029 (expected)

Relevant coursework: Statics and Dynamics, Engineering Graphics, Materials Science, Thermodynamics

Awards: Entrance Scholarship, 2024

Co-op Experience

Quality Assurance Co-op Student, Lakeport Precision Components, Kingston, ON

January 2026 - April 2026

- Inspected incoming machined parts against drawings and tolerances, logging results for about 30 lots a week
- Traced a recurring burr defect on one supplier's bracket and documented it with photos and measurements for the quality lead
- Rewrote five work instructions after a fixture change so operators had current steps

Work Experience

Grocery Clerk (summers and part-time), Fresh Lane Market, Kingston, ON

June 2023 - August 2025

- Rotated stock and checked expiry dates across the dairy and produce sections
- Opened the store on weekends with one supervisor, including the morning delivery check

Design Team

Chassis Subteam Member, Frontenac Formula Racing (student design team), Kingston, ON

September 2024 - Present

- Modelled suspension brackets in SolidWorks and revised them twice after peer design reviews
- Machined test parts on a manual mill under the supervision of the team's shop lead

Skills

Technical: SolidWorks, AutoCAD, MATLAB, Microsoft Excel

Shop and measurement: Manual mill, drill press, calipers, micrometers

Certifications: Workplace Hazardous Materials Information System (WHMIS) training, 2026

Languages: English (fluent), French (basic)
